

This architectural section drawing illustrates a horizontal window assembly within a building facade. The assembly is composed of several vertical and horizontal elements, each labeled with a specific code. The vertical components, from left to right, are labeled 2N-10, 1N-02, 2N-10, 2N-02, 2N-06, 2N-10, 2N-03, 2N-08, 2N-11, and 2N-03. The horizontal components, from top to bottom, are labeled 1N-12, 1N-15, 2N-06, and 2W-10. The drawing also includes elevation markers: ±2.52, ±2.68, ±2.63, and ±0.00. The assembly is shown in a cross-section view, revealing the internal structure and the relationship between the different components. The drawing is a technical representation of a building detail, likely a window or door assembly, showing the internal structure and components. The labels indicate different parts of the assembly, such as frames, sashes, and glazing units. The elevation markers provide a reference for the vertical position of the assembly within the building.
